

VOTING MODERNIZATION

1 Hadassah, the Women's Zionist Organization of America, in light of the events surrounding the  
2 2000 Elections, expresses great concern with the outdated voting systems in the United States.  
3  
4 U.S. elections, a symbol of democracy throughout the world, must serve as a model for free and  
5 fair elections everywhere. As such, it is essential that our voting methods be modernized to  
6 allow equal access as well as an accurate count of ballots. In addition, citizens should be  
7 educated to have a clear understanding of their rights and responsibilities as voters.  
8  
9 Hadassah calls on Congress and state legislatures to improve our voting systems by modernizing  
10 equipment, standardizing voting procedures and educating citizens.
