CHILD CARE

Hadassah, the Women's Zionist Organization of America, reaffirms its commitment to legislation which makes available adequate child care programs.

We support the Act for Better Child Care (H.R. 3660/S. 1885), commonly known as the ABC bill, which will help states offer financial assistance for child care to working families, expand day care programs, improve the quality of child care, develop referral programs to help parents find quality care, and establish a Federal commission to set national standards for child care facilities.
