ASSAULT-WEAPONS CONTROLS

As annual gun-related deaths approach 10,000, Congress has the opportunity to put an end to some of the violence by supporting reasonable initiatives such as are contained in the "Assault Weapons Bill" (S. 386).

Hadassah, the Women's Zionist Organization of America, calls upon Congress to support this bill in order to help control the nongovernmental sale and use of assault weapons and restrict the transfer, importation and possession of new assault weapons.
