Hadassah's Defining Zionism in the 21st Century Series is an online monthly program that creates a welcoming opportunity for everyone to explore various perspectives of Zionism from the comfort of home. This program is free of charge and open to the community.

Jasmine will discuss the current problem with the misunderstanding of the term "Zionism," as well as the connotations it and related words have. She will further explore how to change the narrative of Zionism to be more appealing to a younger generation. She will give examples of current groups of people being inspired by Zionism and will conclude by explaining all the significant and positive changes that can result from repurposing Zionism for the next generation.
