Central

The Parkland High School shooting tragedy hit close to home since the Florida Broward office of Hadassah is 3.5 miles from the scene of this massacre. Many of our Parkland Chapter members have grandchildren attending the high school that was attacked. The Presidents of Hadassah Florida (which includes Florida Atlantic, Florida Broward, Greater Miami and our own **Florida Central**) issued a statement expressing their concern for all those who lost their lives, and for the grief and trauma inflicted upon these children and families.

As you may know, [National has issued a statement urging our legislators to STOP school violence.](#) To find out more about the STOP (Students, Teachers, and Officers Preventing) School Violence Act, click here: [H.R. 4909](#).

We want YOU

Plans are in the beginning stages to meet with Federal policy-makers during their August recess. We are looking for individuals to help make sure our legislators know where we stand on priority Hadassah issues, including a strong US-Israel relationship and women's health equity. If

Hadassah News

March is MS Awareness Month&

Professor Tamir Ben-Hur, world-renowned stem cell research specialist and head of Hadassah Medical Organization's (HMO) prestigious Department of Neurology, is using transplanted stem cells to play a vital role in combating and curing Multiple Sclerosis (MS). This world-first study at HMO has already shown a stopping of the disease progression as well as an improvement in either respiratory functions, or general mobility, in most MS patients.
