

PALM COAST HADASSAH

Presidents Message

During the past few weeks, amidst the current wave of terror, Hadassah Medical Center has been recognized by the international media for its unique, peaceful care - both towards the patients and the medical staff as one.

In a recent article, The Washington Post published an article on the incredible teamwork between Dr. Ahmed Eid and Dr. Elchanan Fried. These two doctors worked hand in hand to save lives during the recent attacks in Israel. When a patient comes in to Hadassah Medical Center the doctors do not ask which one is the victim and which one is the terrorist. All are treated the same.

Please make every effort to get involved in our chapter and help us help Hadassah work their wonders in education, health and welfare for all the people in the world.
