As most of you knew, Jill volunteered for Hadassah and led their "Check it out Program" for over 15 years....She and Sophie Friedlander started it back in 1996 with the help of the American Cancer Society. The program took place at all local Pinellas High schools and various other locations.

Jill loved to teach and loved educating young adults and adults on being proactive about their health. When she passed away New Year's Eve 2014, I established a fund through Hadassah in her name called the "Jill Stenzler-Engelman Health Education Fund". The purpose of the fund is to ensure that the work she started continues in perpetuity.

Jill was an amazing woman and I was so blessed to have her as my bride for almost 30 years. January 10th 2016 will mark the first annual "WE WILL for JILL" walk to raise money for the fund that was created in her name. The event will contain a 1 and 2 mile walk/run, breakfast, fundraising drawing and a short educational component. There will be health related providers, blood pressure screening, diabetes screening and cancer prevention opportunities.

It would mean the world to my family to have as many of you there as possible. Below is a link that will allow you to view a small video clip of an interview Jill had done back in 2011, in between our trips to Germany. You can also obtain more information and register for the walk.

If you have any questions please feel free to email or call any of us.

My family would greatly appreciate your presence.....

With Love and Gratitude,

Greg, Leigh and Aimee.
