Mark Tonkelowitz
Marty Tonkelowitz

Hadassah is now in its second century of responding to the challenges of life throughout the world. The TOBAY Chapter of Hadassah is honored to be part of this effort and hope you will support us by participating in TOBAY's 2017/2018 Calendar/Journal. **We appreciate your help.**

Hadassah is the largest Women's Zionist organization in the United States. We focus on building a better world through programs in health, research, medicine, education, social action, and child welfare.

Your generous contributions support the vitally important research done by the Hadassah Medical Organization as it looks for cures for diseases that affect over 100 million Americans. These include **Alzheimer's, ALS, Cancer, Diabetes, Parkinson's, MS, Macular Degeneration, Spinal Cord Injuries, Brain Injuries, and Heart Disease.**

Your contributions will also be used to furnish Hadassah's new Sarah Wetsman Davidson Medical Tower in Jerusalem with the newest, leading-edge equipment and toward the completion of the below ground surgical center.

Thank you so much for your generosity.

Your contributions are fully tax deductible.
