Kathy Sheehan, Chef-testant

Kathy Sheehan is originally from the Chicago area but has spent her adult life living in the south., including Oklahoma, Texas, Florida and South Carolina. She decided to make Atlanta her home in 2002 when her employer transferred her. Currently working as a Senior Loan Officer with Bay Equity Home Loans by day, her focus is matching her clients with the right mortgage programs to help them achieve their real estate goals. By night, Kathy is a self-proclaimed foodie! She started cooking when she could stand on a stool next to her grandmother in the kitchen at age 3 and hasn't stopped. Grandma's philosophy was "a recipe was merely a suggestion, so we add a little of this or a little of that to make it our own." Continuing that philosophy makes cooking fun! "Competing in this competition will give me an opportunity to test my skills while raising money for such a worthy cause. A family friend suffered with Alzheimer's disease, it was heartbreaking to see the toll it took on my friend and her family."

Pam Leinmiller, Sous Chef

Pam is originally from the northeast and moved to Atlanta as a teenager, graduating from Roswell High School. Although she looks terrible in orange, she then attended The University of Tennessee in Knoxville, graduating with a Computer Science and Math degree. Always a life-long learner, it is not surprising that she is both a Professional Speaker and Presentation Coach as well as a Certified Personal Fitness Trainer. Pam is wife to Mark for 32 years and mother of 2 married daughters. She loves good food and was inspired as a young girl by her father as he created delicious meals without using recipes. She has been known to follow him around the kitchen, diligently writing down his every move. If invited to her home for a meal, you are likely to be experimented upon. She is looking forward to competing with her long-time friend, Kathy!

Kinneret Weismark, Runner

"I was born in 2005 in Jerusalem, Israel at Hadassah Hospital in Ein Karem. I love to cook, bake, and read. I also love Justin Bieber! The reason why I love cooking is that I can zone out and think about my day or what I am going to do. I like to have music on when I am cooking because I can dance while I am cooking and it makes it even more enjoyable. Something that I find challenging about cooking is that I can burn myself easily. I think that the easiest part of cooking is that most things do not take much time to cook which is good."
