Space is limited – Register now!  
2 Nursing Contact Hours\*  
**Pre-registration required for CEU's**

### **What is Gender Equity in Medicine?**

The **Hadassah** initiated [National Women's Health Empowerment Coalition](#) recognizes that women are not small men. They are acknowledging that:

1. We do not react the same to medications and treatments for illnesses like insomnia, allergies, heart disease and Alzheimer's Disease.
2. Symptoms for many diseases may not present the same way in women and men.
3. Women may not have the same access to healthcare for disease prevention and treatment as men.

The coalition's goal is to increase healthcare access and female participation in research clinical trials to reduce dangerous drug reactions and ineffective treatments resulting in poor outcomes and even death.

**Don't miss this important Community Forum featuring a Panel of Experts on Alzheimer's Disease, Heart Health, and the impact of hormones. Health Exhibits, Light Refreshments too!**

Speaker and event details can be found on our [Facebook event page](#). Share [Flyer](#).
